OCLC Number: 54879620 Excerpt: . . . information and injectate data available on laundromat wells is discussed below. It includes analytical data from nine coin-operated laundromats in New York and data from three sampling events at a combination carwash and laundromat in Libby, Montana. The data from New York were received by USEPA in 1999, and the Montana sampling events took place in 1997 and 1998. In New York, many of the laundromats engage in self sampling and analysis. However, the New York State Department of Environmental Conservation sampled several coin-operated laundromats in Suffolk and Nassau counties.
